

## BREATHING AIR COMPRESSOR MCH 6/EM

**MCH 6/EM** is among the most compact and lightest “Coltri” breathing air compressors, making it easily portable. This single-phase unit has a flow rate of 80 l/min, capable of filling a 10 liter cylinder from 0 to 300 bar in 25 minutes.

Technically advanced, simple and practical to use, these features allow you to use the electric motorized compressor even at home.

The MCH-6 compressor series was created for single cylinder charging.

### STANDARD EQUIPMENT

- Hour counter
- 120 cm. long whip
- 1 cylinder connection (choose from those available)

FLOW RATE	80 l/min - 4,8 m <sup>3</sup> /h
MOTOR	SINGLE PHASE ELECTRIC 230 V 50 HZ
CHARGING TIME	10 L 0-300 bar 25 min.
OPERATING PRESSURE	232 - 300 bar
DIMENSIONS (L x A x P)	65 x 35 x 39 cm.
NET WEIGHT approximate.	39,5 kg.
NOISE LpA	91 dB
STAGES AND CYLINDERS	4
COOLERS	Interstage and final cooling pipes in stainless steel
