

Lined Jacket ST501

Jacket in aluminized SAFAL GREEN fabric of 340 gr (50% para-aramid 50% Panox), completely insulated with 100% pre-oxidized OXISTOP of 325 gr. composed by: felt in pre-oxidized fiber quilted with lining in fabric 50% aramid 50% viscose F.R.

Front opening, made up of an internal closure using a flap stopped by Velcro® F.R. and by a protective strip closed in turn with Velcro® F.R.
Korean collar totally quilted and insulated.
Set-in sleeves.

Ideal if the risk derives from proximity to heat sources or contact with accidental flames, but above all it protects against radiant heat. The jacket also offers excellent resistance to splashes of aluminium and molten iron.

Jacket's length: 90 cm. (Size L)

Code 80.0106.118 SG+OXI

The same model is made with the innovative 460 g SAFAL EVO aluminized fabric (70% para-aramid 30% Twaron), with lining in 100% FR cotton fabric 160 g.

This fabric improves comfort by significantly reducing the thickness and weight of the jacket, while leaving its resistance characteristics unchanged.

Code 80.0106.147 SE
