

Mobile Foam trailer S200

Mobile trolley for foaming liquids consisting of a shock-resistant red polyethylene tank with capacity of **208 lt.**

Painted tubular steel frame mounted on pneumatic wheels, with parking brake.

Level indicator band and foam filter.

BYPP 200 in-line mixer with 3/6% fixed doser and non-return valve.

Unified connections M / F 45 UNI 804.

Low expansion foam nozzle "Kugel foam 200" nominal flow rate 200 l / min.

N° 2 pipes diameter 45 of 20 m in accordance with UNI 9487 complete with fittings for connecting the hydrant-mixer-lance.

Towing hook equipped with a height-adjustable parking wheel.

Toolbox included.

TECHNICAL DATA :

Nominal flow rate: 200 lt.

Expansion ratio: 1: 10/12.

Discharge time: 16/32 min.

Foam range: 12-16 m.

Weight (empty): 83 kg.

Dimensions: 1650x850x920.

Minimum pressure: 0.3 MPa.
