

Rechargeable floodlight with telescopic stem SOLARIS

Solaris Lite 20K is a new improved version of the Solaris Lite rechargeable floodlight. Upgraded with a light output of **20,000 lumens** and the latest LED technology, Solaris Lite 20K is a range of portable and lightweight lighting units. Installing a Solaris Lite 20K drive takes less than 1 minute for quick deployment in emergency situations.

The units are made of extremely durable ABS plastic to ensure long life and reliability in all situations. All Solaris models produce no heat and operate silently, making them ideal lightweight alternatives to halogen floodlights that run from a generator.

No maintenance required and can be left in any state of charge.

Main features :

- Light: 20,000 lumens
- Up to 50 meter
- Runtime up to 32 hours
- Battery status indicator
- Glove compartment
- Shoulder strap for easy transportation
- Compact design
- Installation takes only a few seconds
- Rotating and tilting head
- Lightweight and weatherproof (IP65 rated)
- Durable ABS plastic construction
- 1.7 meter extension
