

Folding Rubber Bridge for N. 2 hoses DN70

Folding safety rubber bridge for n.2 hoses DN70 or smaller.

With interlocking connection parts that also act as handles.
It can be expanded in width by joining it to another rubber bridge.

Features:

- Lateral yellow reflective stripes
- Up to a maximum of 13 tons per axle
- Foldable in the center for a comfortable and not cumbersome transport

To allow protection of the hoses and the passage of the trucks, the purchase kit requires **4 pieces - two per each size**

Cod. 10.0204.008
