

Rubber Bridge for N. 2 hoses DN70

Safety rubber bridge for n.2 hoses DN70 or smaller. Adaptable to uneven floors. With interlocking connection parts that also act as handles. It can be expanded in width by joining it to another rubber bridge.

Features:

- Lateral yellow reflective stripes
- Made of solid black rubber
- Tested up to 40 T of vehicle load

For n.2 hoses of any measure

Dimensions: 1000 x 300 mm.

To allow protection of the hoses and the passage of the trucks, the purchase kit requires **4 pieces - two per each size**

Cod. 10.0204.003
