

Folding and reflective traffic cone

Folding traffic cone with integrated lighting.

Lightweight design for use in non-public traffic areas. Also suitable for use in rescue operations. The folding cones are partially **reflective**: equipped with gray reflective stripes, they reflect light from incoming light sources such as car headlights.

An additional safety benefit for the user.

Features:

Ideal for car breakdowns and for signaling barriers and dangerous points

Visible from all directions (360°)

Easy to store thanks to its small size, it fits in every trunk and under the car seat

High stability with low weight thanks to the extremely low center of gravity

Powerful integrated flashing light for even better visibility in the dark or with diffused light

Battery life over 300 hours

Included: n. 2 batteries AAA, PVC carrying bag

Available in two heights:

- H. 450 mm. | dim. (L x P x H): 25 x 25 x 5 cm.
- H. 600 mm. | dim. (L x P x H): 30 x 30 x 5 cm.
