

## Snuffer nozzle for Chimney Fires of TFT

### KIT extinguishing chimney fire **SNUFFER TFT**

This special nozzle quickly and safely extinguishes chimney fires using an ultra-fine spray jet, significantly reducing potential water damage. The 2.30 kg. nozzle head is simply operated by a single Firefighter and easily breaks potential blockages inside the chimney. Eight misting nozzles strategically positioned on the nozzle head provide **150 liters of water per hour at 4 bar**; the nozzle is powered by a 25 mm hose.

The Kit includes :

- n. 1 **SNUFFER** nozzle
- n. 1 high resistance Ø 25 hose of 7.62 meters
- n. 1 ball shut-off valve.

Items are supplied in a convenient bag of 6.80 kg., which can be easily stored in a compartment of the vehicle.
