

Identification Vest cod.80.0602.033

Identification vest / functional vest for emergency services in the fire brigade, THW, rescue service. The ID Vest is truly a functional vest. Beyond the actual job of identifying the operator's function, it can do so much more with room for the gear you need in the spacious pockets and plenty of straps to secure gear. Whether it's a writing pad, a radio, a lamp, a knife or a mobile phone, everything can be conveniently stored in the vest. Thanks to the Velcro adjustment on the side, the vest can be adjusted in width. So it always fits perfectly and doesn't hang anywhere. Name and function tags can be attached to the fleece surfaces on the chest and back

Material: 100% Cotton

Size: S-XXL (universal)

The weight: 480 g

available colors: yellow, royal blue, green, purple, red, black/white checkered, white

Characteristics:

- Downy areas on left and right chest, each 13 x 5 cm
- Double fleece surface on the back for attaching two velcro tags (each 38 x 8 cm)
- Yellow-silver-yellow reflective stripes for better visibility
- two patch pockets, on the front with Velcro closure, 15 x 16 x 3 cm (H x W x D)
