

ANTI-VIBRATION GLOVES

Anti-vibration gloves knitted with natural fibers, with a spongy poly chloroprene composite coating. The Gloves are treated to reduce the proliferation of microorganisms in order to limit bad odors. The uniqueness of the coating on the palm reduces the impact, shocks and vibrations. Excellent levels of comfort and maneuverability: the soft (seamless) base of the glove is comfortable to wear even for long periods. Unlike common anti-vibration gloves, VIBRAPROTECT allows to have a high level of dexterity. The coating made of synthetic foam offers a high degree of grip.

Typical applications: for the use of tools / machinery - such as breakers, pneumatic hammers etc. - which cause vibrations in the fields of construction, maintenance, assembly, etc.

Colour: black
Size: from M/8 to XXL/11
Length: 27 cm.

STANDARDS: **EN 420 - EN 388 (4 1 4 2 X) - EN 10819** (TRm = 0.865 TRh = 0.598)
In implementation of Legislative Decree 187/05.
