

## Selectable Gallonage INFOREST nozzle

Gallonage Infoforest nozzle available in two models :

- Nozzle 1" adjustable flow rate with 4 selectable levels: **19-37-90-150 lt/min.**  
Code 10.0302.038  
Connection thread 1" (25 mm)
- Nozzle 1.5" adjustable flow rate with 4 selectable levels: **115-230-360-475 lt/min.**  
It allows the application of AFFF-type foam.  
Code 10.0302.039  
Connection thread 1.5" (38 mm)

It is made of anodized aluminum, and it requires minimum maintenance, since the shut-off valve and the rotating teeth are made of stainless steel. All components are corrosion resistant.

It combines from a fog to a full jet with only a quarter turn of the nozzle. It is designed to withstand pressure up to 40 BAR, making it optimal for use in lines and winders.

On request it can be supplied with UNI / STORZ connections.
